Specifications are subject to normal manufacturing tolerances.

Limited Warranties

12 Months Quality Assurance

This product is constructed with Blended Wool. Wool is the only widely available carpet fiber not made from oil. New Zealand Wool is naturally renewable, biodegradable, recyclable, energy efficient and sustainable.

Homeowner Obligations

This carpet must be installed in accordance to the (CRI) Carpet & Rug Institute # CRI-105. Use of a carpet pad with 6 to 8 lbs minimum density recommended. Spills and stains should be removed in a timely manor with a appropriate carpet cleaner. Receipts for periodic cleaning by a trained professional cleaning service required to maintain warranty coverage.

Maintaining Wool Carpet

Regular and thorough vacuuming at least once a week and more often in heavy traffic areas will remove soil and dirt particles before they become imbedded into the pile of the carpet. The head of the vacuum cleaner should be adjusted so that the brushes barely touch the surface of the carpet.

*DO NOT use a self adjusting vacuum since they adjust too deeply into the pile and will cause excessive fuzzing.

*DO NOT use an overly stiff brush on the beater bar since this too will cause excessive fuzzing.
